

InfoEscolas Portal: main indicators for primary and secondary education in mainland Portugal

Covers around 1 175 000 students enrolled in more than 5 000 private and public schools

Includes statistics for the 1st, 2nd and 3rd cycles of basic education and for Scientific-Humanistic and vocational courses in secondary education

Starting with 9 indicators in the 1st edition (2014), between 2016 and 2021 there will be a total of 88 indicators/functionalities

Statistics by school, school clusters, and regions: Município, Distrito, NUTS II and NUTS III

The reference period for most of the figures is the 2020/21 school year, although for the indicators based on national exams, is the 2021/22

The source of information is the data reported by schools through the Ministry of Education, Science and Innovation's information systems and the National Secondary/Basic School Exams (ENES/ENEB), compiled by the National Exams Jury (JNE)
